EU Safety Data Sheet according to Attachment II EC Reg. 1907/2006 (REACH)

First created on: 2016-10-19 Updated on: 2016-10-19
Next inspection on: 2017-06-30 Printed on: 2016-10-19

Version: V11/2016

Note: Non hazardous material, therefore it is not necessary to provide you with a safety data sheet according to Article 31 of the EC Regulation 1907/2006 (REACH).

1. Identification of the substance / the preparation / the product and identification of the company

1.1 <u>Identification of the substance / the preparation / the product</u>

Trade Name: SiLiglit Polyester Glitter Grade I Iris 500-3

1.2 Application of the substance / the preparation / the product

To be used as: Effect material for decoration and other products

1.3 Company identification

Manufacturer / Supplier: Sigmund Lindner GmbH

Oberwarmensteinacher Strasse 38

95485 Warmensteinach

Germany

Phone: +49-9277-9940 Fax: +49-9277-99499 Web: www.sili.eu

E-Mail: reach@sigmund-lindner.com

Information provided by:

Mr. Michael Dressler (Quality and Innovation)

Mr. Reinhold Schneider (Quality Assurance)

1.4 Emergency Call

Emergency information: Phone: +49-9277-9940

This telephone number can be reached during office hours (Central European Time):

Monday - Thursday: 7.00 AM - 4.30 PM Friday 7.00 AM - 1.00 PM

2. Possible dangers

GHS/CLP-Classification: Not a dangerous product according to the Globally

Harmonised System (GHS) and CLP.

It does not have to be labelled according European

Regulation (EC) No. 1272/2008.

Additional danger advice: No risks from this product regarding human health or

environment are apparent. We therefore have no knowledge of chronic and skin irritating effects when

physical contacts has occurred.

Data file: MSDS en SiLiglit Grade I Iris 500-3

EU Safety Data Sheet according to Attachment II EC Reg. 1907/2006 (REACH)

First created on: 2016-10-19 Updated on: 2016-10-19

Next inspection on: 2017-06-30 Printed on: 2016-10-19

3. Composition / detailed information on the ingredients

3.1 Chemical characteristics

Description: Solid made of polyester-foil

3.2 Ingredients

Name	Classification	Weight	CAS-No.	EC-No. (EINECS)	CI-No.	FDA/CFR
Polybutylene Terephthalate	no hazardous substance	80 %	30965-26-5	none	none	FDA Ref# 21 CFR 177.1660
Polyethylene Naphthalate	no hazardous substance	20 %	25853-85-4	none	none	FDA Ref# 21 CFR 177.1637

4. First-aid measures

General information: After contact with the melted product contaminated clothes

need to be changed. In case of fainting, place and transport the person into recovery position. In case of persisting discomfort please contact a physician. To helpers: Please

Version: V11/2016

protect yourself.

After inhalation: After inhalation of dust particles and in particular

decomposition gases, take the injured person into fresh air, lay him down and protect him from hypothermia. In case of a fainting spell and existing breathing, place the person in a stabilized side position. Please contact a physician for

treatments.

After skin contact: In case of contact with the melted product rinse water over the

affected areas of skin for at least 15 min. Remove

contaminated clothes, but do not remove product residues from the skin. Burns have to be covered with sterile bandages. In case of burns, skin irritations or other symptoms please

contact a physician.

After eye contact: Do not rub in case of particles in the eye. Please remove

particles carefully from the affected eye. Rinse eyes thoroughly with plenty of running water, but remove contact lenses prior to this. In case of irritations and other symptoms

please contact your physician.

After swallowing: Rinse mouth thoroughly and drink plenty of water. In case of

indisposition call a physician.

Advise to the physician: Toxic effects of the product itself except for thermal

decomposition and fire are unknown. In case of any

discomforts please treat symptomatically.

Next inspection on: 2017-06-30 Printed on: 2016-10-19

5. Fire fighting actions

Suitable extinguishing

agents:

Water spray, extinguishing foam, extinguishing powder,

Version: V11/2016

carbon dioxide.

For safety reason unsuitable

extinguishing agents:

Jet of water

Special dangers: Carbon monoxides (CO) and other toxic and flammable gases

can be released.

Special protective

equipment:

An independent respiratory device (isolation device) should

be used.

Additional advice: The product can ignite in case of fire and can burn outside of

the source of ignition. Toxic-, flammable gases and vapours can be released through thermal decomposition. It is possible that flames can spread through spontaneous ignition of gaseous decomposition products. Please cool the melted product with water. Collect the burn residues and water for fire

fighting in compliance with the legal regulations.

6. Measures by accidental release

Personal protection: Avoid the build up of dust. Do not inhale any dust. Keep

sources of ignition away from the dust.

Environmental measures: Waste water must be mechanically cleaned from rest products

prior to emptying into the sewer system.

Cleaning procedures and

absorption:

Dry absorption and if possible re-utilisation of the material.

7. Handling and storage

7.1 <u>Handling</u>

Safety advice: Avoid overheating through improper processing and dusting.

Technical protective

measures:

Local ventilation and airing guarantee, that all limits mentioned

under point 8.1 are maintained.

Fire and explosion protection information:

Keep away from sources of ignition.

7.2 Storage

Requirements for storage No special storage necessary. Store in tightly closed

in rooms and containers: (original) containers.

Joint storage: May not be stored together with products of storage

class 1 (explosive substances), 5.1A (igniting

substances) and 6.2 (infectious substances). Particular regulations will apply for the joint storage of storage classes 2A, 2B, 4.1A, 4.2, 4.3, 5.1B, 5.1C, 5.2 and 7.

Version: V11/2016

Additional details regarding

storage:

Protect from heat. Comply with the appropriate

regulations of the company's fire prevention measures.

Storage class: LGK 11 (flammable solid materials)

8. Exposure limits and personal protection

8.1 **Exposure limits**

The applicable limits which are to be complied with and monitored, particularly during mechanical processing with a risk of dust:

Parameter	Type of limit	value (PEC)	syringe limit (PNEC)	
General dust limit, breathable fraction (E = breathable dust)	Limit at work (AGW) according to the TRGS 900 Regulation	10 mg/m ³ E	2 times exceeding within 15 min, 4 times per shift with an interval of 1 hour is permitted.	
	Measuring procedure:	For example: according to the BIA workbook: "Messung von Gefahrstoffen" (Measurement of dangerous substances).		
General dust limit, alveolar fraction (A = alveolar dust)	Limit at work (AGW) according to the TRGS 900 Regulation	3 mg/m ³ A	2 times exceeding within 15 min, 4 times per shift with an interval of 1 hour is permitted.	
	Measuring procedure:	For example: according to the BIA workbook: "Messung von Gefahrstoffen" (Measurement of dangerous substances).		

8.2.1 Exposure limits and monitoring in the workplace

An on-site extraction system is required in the event of gathered dust and thermal pollution from the product.

Respiratory protection:

Use respiratory protection in the event of dust exposure, e.g. a P1 dust mark that conforms to EN 143 or a half mask with particle filter FFP1 or PP2 conforms to EN 141. Caution! Limited wearing period.

EU Safety Data Sheet according to Attachment II EC Reg. 1907/2006 (REACH)

First created on: 2016-10-19 Updated on: 2016-10-19
Next inspection on: 2017-06-30 Printed on: 2016-10-19

Protective gloves are generally not required. However, for constant skin contact it is necessary to use gloves of low mechanical and special material demands, e.g. Material:

Mat. thickness

Penetration time:

Butyl rubber

min. 0.4 mm

min. 30 min. acc. to

Version: V11/2016

EN 374

Side-shielded safety goggles that conform to EN 166 are required when carrying out mechanical processing

with exposure to dust.

Body protection: Generally, normal working clothes are sufficient.

General work protection Do not inhale dust. Avoid contact with eyes, skin and and hygiene measures: Clothes. Do not eat, drink, smoke or snuff during work

clothes. Do not eat, drink, smoke or snuff during work. Wash hands prior to breaks and after finishing work. Change soiled clothes. Protect skin by using e. g.

skin lotions and -creams.

8.2.2 Restrictions and monitoring of the environmental exposure

There are no known properties of the product, that pose dangers to the environment. General operational measures are sufficient to protect the environment.

9. Physical and chemical properties

9.1 General details

Eye protection:

Physical condition: Solid

Shape: Glitter particles in either rectangular, hexagonal or

square shapes

Odour: Odourless

Colour: 521 iris-copper/red

522 iris-red/green523 iris-blue/green524 iris-violett

9.2 Important details regarding health / environmental protection as well as safety

pH value: Non-applicable

Heat resistance: 193 ° C
Melting point / melting range: not known

Boiling point / boiling range: Cannot be measured as decomposition occurs first

Flash point:
Ignition temperature:
Self-ignition point (Solid/Gas):
Non-applicable not known
Not self-igniting

Blaze properties: None

Risk of explosion: Possible dust- or decomposition gas explosion

Vapour pressure: To be disregarded

EU Safety Data Sheet according to Attachment II EC Reg. 1907/2006 (REACH)

Version: V11/2016

Specific weight: 1.32 kg/dm³

Bulk density: between 0.20 and 0.75 kg/dm³ - depending on particle

size

Water solubility: Insoluble in water Partition coefficient n-Octanol/ Non-applicable

water:

Viscosity: Non-applicable Vapour density: Non-applicable Evaporation speed: Non-applicable

9.3 Additional details

There are no further details required regarding safety-relevant parameters.

10. Stability and reactivity

It is recommended to carry out a trial run prior to processing the product.

10.1 Conditions to be avoided

Pyrolysis, dangerous decomposition products and dangerous reactions will not occur if the product is used as intended.

10.2 Substances to be avoided

Potent acids, bases and oxidation agents.

10.3 <u>Dangerous decomposition products when heated</u>

Aldehyde, carbon monoxide, carbon dioxide, hydrocarbons.

11. Toxicological data

There is no toxicological data available.

According to our knowledge, the product does not cause any health defects, if proper handled and the product has been applied as intended.

The contact with the melted product can cause burn wounds. The inhalation of dust and decomposition gases can cause health defects.

12. Environmental details

Ecological respectively ecotoxicological data is not available.

According to our knowledge, the product does not cause any damages to the environment, if proper handled and the product has been applied as intended.

13. Disposal information

No waste is produced from the product that would require special supervision according to directive (EU) No. 1357/2014.

Unsoiled product: Material recycling may be possible. If impossible, the

remainders of the product should be disposed in compliance with the legal instructions as commercial waste which is similar to the disposal of domestic

Version: V11/2016

waste.

Registration of waste acc. to AVV: 20 01 39 - synthetics substances

Soiled product: If material recycling is impossible, the remainders of

the product should be disposed in compliance with the legal instructions as commercial waste which is similar

to the disposal of domestic waste.

Registration of waste acc. to AVV: 20 03 01 - mixed domestic waste

Empty and partially If material recycling is impossible, the remainders of emptied packages: the product should be disposed in compliance with the

legal instructions as commercial waste which is similar

to the disposal of domestic waste.

Waste code number acc. to AVV: 15 01 01 – packages made of cardboard and paper

15 01 02 – packages made of synthetic materials

14. Transport details

Non-hazardous materials in terms of ADR/GGVS, RID/GGVE, ICAO/IATA, IMDG.

15. Legal regulations

15.1 EU Regulations

Classification and labelling: None in accordance to the Regulation (EC) No.

1272/2008 (CLP) or in accordance to any other

known EU regulations.

15.2 National Regulations (UK)

Classification and labelling: The product is not due to labelling according to UK

regulations.

Other UK regulations and

guidances:

Health and Safety at Work Act 1974.

- The Management of Health and Safety at Work

regulations 1992.

L5 Control of substances hazardous to Health.
 The Control of Substances Hazardous to Health

Regulations 2002.

- Approved codes of practice and guidance.

- Guidance Note EH40 - Occupational Exposure

Limits.

16. Additional information

16.1 Recommended Limitations of Use

Glitter is not a toy and must therefore be stored away from children. A resale as toy requires the EC conformity evaluation and the distributor's compliance with the legal regulations. We expressly point out, that a conformity evaluation in this sense has not been carried out by us.

16.1 Further information

Company details: Sigmund Lindner GmbH
